**Semantic Morphology in ELKiFAIA FI NAHW Mohamed BEN
Abdullah Ben Mahmoud
A Study in the Structures of the Trilingual Augmented Past**

D. Dergaoui Mokhtar

Abstract

This research aims at examining the relationship that exists between morphology and semantics in the old language legacy and the modern linguistic course. The latter investigates the role of the structure and the morpheme in identifying the meaning. It also highlights the semantic multiplicity and variety of the trilingual augmented past of the morphologic registry, which.....)to its author Mohamed BEN Abdullah Ben Mahmoud . it has been demonstrated that the Arabic word is loaded and charged with meanings, a fact that gives the speaker a large place of action and a fertile space of interpretation and investigations of its meanings.

Keywords: The Semantics of morphology - Morphem - Classification of Affixes -The Semantics of Inflectional Affixes
